

FOOD FACTORY-4-US 2022: MODERNIZATION OF A TRADITIONAL FOOD FOR CONTRIBUTING TO YOUR REGIONAL FOOD VALUE CHAIN

Are you a student in a food study programme eager to find solutions to improving food value chains?

We want to hear your ideas!

Your project must identify a specific challenge/problem and develop a solution exploitable by industry with the aim of improving innovation in the quality and safety of foods in sustainable food systems. The **2022 FoodFactory-4-Us International Student Competition** addresses the following question:

How can modernization of a traditional food contribute to your regional food value chain?

Do you have a great idea? Form a team of 3-5 Master's students (including max 1 PhD student) and briefly present your project proposal the latest by **11H59 CEST on 15 SEPTEMBER 2022** on [Application: FoodFactory-4-Us Edition 2022 | ISEKI-Food Association](#). Student teams from around the world are invited to participate.

Accepted teams will participate in an online, innovative, learner-centric environment based on participatory action-learning to improve knowledge and competences, group cooperation, and teamwork.

Project evaluation is 'real', carried out by food industry and/or food associations who, with academics, evaluate projects.

**Application and participation are completely free of charge.
Fabulous prizes (and recognition!) for the winning team!**

Horizon 2020
European Union funding
for Research & Innovation

IMPORTANT DEADLINES

15 September 2022
Submit the project proposal

25 September 2022
Acceptance of the teams

October – November 2022
Online trainings

5 December 2022
Submit the project report

Week of 12 December 2022
Final Virtual Workshop

ONLINE INNOVATIVE ACTION-LEARNING

AWARDS

- 300 Euro for the best project, sponsored by the [ISEKI-Food Association](#)
