

FOOD FACTORY FOR US

International competition game

2024 TOPIC

Upscale or downscale a food supply chain to a regional or national level.

We want to hear from you!

Your project must identify a specific challenge/problem related to upscaling or downscaling a food supply chain to a regional or national level and develop an exploitable solution to that challenge/problem. The innovative and exploitable solution that your team proposes should be **sustainable** and address at least one of the following aspects: **technical issues, marketing, policy, business models, consumer-producer relations and/or social challenges.**

Do you have a great idea?

Form a team of 3-5 students anywhere in the world and send your [application!](#)

Accepted teams will participate in an online, innovative, learner-centric environment based on participatory action-learning to improve knowledge and competences, group cooperation, and teamwork.

Application and participation are completely **free of charge.**

Fabulous prizes (and recognition!) for the winning team!
